

New CTP Replacement Parts for Heavy Equipment

## CTP METER KITS

### New features of our CTP Hour Meter

- The geometry and material of the Ratchet Lever was changed to enhance performance. A glass filled material was selected for its strength to assure the part remains flat during its life.
- The torsion spring ends were redesigned to reduce hook stresses that were, in limited cases, causing spring failure.
- The Mounting Plate design was improved by a change in material. The previously used ABS plastic was replaced by Nylon. This ensures that the gear on the Ratchet Wheel will not break when exposed to high temperatures during operation.

| Part No. | Description | Model                           |
|----------|-------------|---------------------------------|
| 2057700  | METER KIT   | DIGITAL                         |
| 2005717  | METER       | DIGITAL                         |
| 2005725  | METER       | DIGITAL                         |
| 2142465  | METER KIT   | DIGITAL                         |
| 2681964  | METER KIT   | DIGITAL                         |
| 9W1490   | METER KIT   | DIGITAL                         |
| 9W1491   | METER KIT   | DIGITAL                         |
| 9W1491M  | METER KIT   | MECHANICAL<br>VERSION OF 9W1491 |
| 9W1492   | METER KIT   | DIGITAL                         |

| Part No. | Description | Model                           |
|----------|-------------|---------------------------------|
| 9W1493   | METER KIT   | DIGITAL                         |
| 9W1494   | METER KIT   | DIGITAL                         |
| 9W1495   | METER KIT   | DIGITAL                         |
| 3T8325   | METER KIT   | MECHANICAL<br>VERSION OF 9W1495 |
