

New CTP Replacement Parts for Heavy Equipment

METAL FACE SEALS

ADVANTAGES

CTP Metal Face Seals provide positive protection for bearings and lubricants in abrasive, moderate-speed applications. They permit the use of oil as a lubricant instead of grease. With oil, friction loss is reduced and service life is extended.

CTP Metal Face Seals Offer: Corrosion-resistant seal rings, Minimum face load variations.

Part Number	Descriptions
0990183	SEAL GROUP, 311 / 312
1090885	SEAL GROUP, 322 / 325
