

New CTP Replacement Parts for Heavy Equipment

## REVERSIBLE AND STANDARD FANS

Reversible fans allow the operator to remain comfortable during the seasonal temperature changes, day to day or from early morning to afternoon by reducing the time and effort required to change a standard fan. In addition, these fans can be used to free the radiator of debris, keeping the engine cooler and running more efficiently. As a result, this prolongs the life of the engine.

### HOW IT WORKS

**1** With the engine off, the ignition locked in the off position, and any required guarding removed, you are now ready to reverse your fan. There is a pink "DANGER" tag provided with your fan that should also be fastened to the ignition switch panel.

**2** Individually reverse each blade by simply pushing inward (towards the hub) to compress the spring and then begin to rotate the blade; it should only turn in one direction.

**3** Once the blade begins to rotate, you no longer need to keep pushing inward; continue to turn the blade toward the desired position.

**4** Once the blade is rotated fully to the desired position, the blade will "spring" outward and lock itself into place. Now the blade will not be able to be turned around without pushing it inward again. The reversing of one blade is now complete; continue to reverse the remaining blades so that they are all in the same position.

**5** Now that all of the blades have been reversed, the fan will force the air in the opposite direction. You are now ready to re-install the guarding, unlock the ignition

switch, and continue operating the equipment with increased comfort.

Part No.	Description	Application
1270616	REVERSIBLE FAN	DH9
1479672	REVERSIBLE FAN	D8K, 572R
1003607	STANDARD FAN	14H, 120H, 160H, 140H, 135H
1265975	STANDARD FAN	416C
1P7936	STANDARD FAN	637E, D6
1S0572	STANDARD FAN	D8
2F4638	STANDARD FAN	988, D8
2P8907	STANDARD FAN	12G, 120G, 130G, 160G, 14G
4N8344	STANDARD FAN	955L, D5B, 943, 953
4W0255	STANDARD FAN	973, 966
5I8000	STANDARD FAN	320, 320L, 320N, 315C, 315CL
5M5880	STANDARD FAN	D5, 951, 950, 955
5S9897	STANDARD FAN	561
6I1363	STANDARD FAN	910, 931
6N0590	STANDARD FAN	D9
7S0542	STANDARD FAN	951B, 950, D5
7S0543	STANDARD FAN	D5
7T2793	STANDARD FAN	966C, D7H, 12G, 140G
9N1210	STANDARD FAN	120G, 215B, 235
9S9696	STANDARD FAN	D7G
